

Home Matters.

SKIN, with its welcome promises, its balmy breezes, and its few discomforts, is upon us. Burying in the grave of the past the blustering winds, the driving sleet and the cheerless landscape of the past winter, it is a most pleasant, welcome visitor. The ice, which has so long afforded a smooth road for the traveler, and at times a fine surface for the skaters, in accordance with immemorial usage disappeared on Sunday morning, and the buzzing of saw mills on the river or give signs of returning activity.

Speaking of winter, reminds us of the fact that our citizens have been afforded an unusual amount of amusement during the past season. Concert performances, Balls, Parties, etc., have been frequent, and with few exceptions, have given general satisfaction. The ladies, following after the manner of those in other cities, have attempted to learn the art of skating. Doesticks intimates, that this amusement is followed by the fairer sex for the sake of the numerous huggings and squeezings, which they necessarily receive during their tuition; but we are loth to believe this to be the case with our ladies. In fact we were informed by a lady of uncertain age, and more uncertain matrimonial prospects, that the amount of that study necessary to acquire proficiency in this art was the only objection she had to being taught. It is to be hoped that measures may be taken to secure the ladies a good skating park next season.

SHIP BUILDING.—The Schooner now being built by Messrs. WHITMORE & BLANCHARD, on the opposite side of the river, is rapidly approaching completion, and it is expected that she will be launched by the middle of next month. She is to be a "standing keel" craft, topsail rigged, and of one hundred and eighty tons measurement. Her dimensions are as follows: length of keel, 94 feet; deck, 98 feet; breadth of beam, 24 feet; depth of hold, 8 feet. She is expected to draw only six feet of water. She will be built entirely of live oak timber, with outside planking three inches thick, square fastened, and will be one of the staunchest vessels on the lakes. The advantages of this port for ship-building are becoming apparent, and who can tell but that on the map of the future Saginaw may be dotted down as one of the most extensive ship-building localities of the West?

NEW COMERS AND IMPROVEMENTS.—We are led to believe that the spring will bring many business men to East Saginaw for the purpose of locating. Among the number we may mention one hardware dealer, one druggist, one liquor merchant, and ("Angels and Ministers of Grace defend us") one lawyer! The only difficulty experienced is the want of stores. Good stores would at the present time prove a profitable investment. In this connection we must not fail to mention the fact that there are in course of erection three frame buildings near the corner of Genesee and Jefferson streets, intended to be occupied as stores. Mr. O. P. Burt will also commence building a store on Water street, nearly opposite the Jeffers block, in a few days. Dwelling houses are springing up like mushrooms, in the outskirts of the city, the grading of Hoyt street having rendered the South-east portion of the city a desirable location for residences.

NAVIGATION ON THE RIVER.—The river may now be said to be open. On Monday afternoon the Steamer *Star* arrived from Saginaw City, gaily decked with flags and crowded with passengers. This Steamer and the *Little Nell* will hereafter ply regularly between the two cities, carrying passengers for five cents each. Before this reaches our subscribers, we presume that boats will also run regularly between here and Bay City. The *Fox* is lying yet at the City, minus her boiler, which is being repaired.

SPRINTER ELECTION.—At the charter election held in this city, on Monday last, the entire republican city ticket was elected by majorities from 77 to 144. In the first Ward, MICHAEL JEFFERS, Democrat, was elected Alderman, over ANTONY SCHMITZ, Rep. by 77 majority, and in the 3d Ward, JOHN ERM, Dem. was elected over VOORHEIS, Rep. For School Inspector, by 33 majority. With these exceptions the entire republican Ward ticket was elected.

ACCIDENT.—We have heard of very few accidents caused by the breaking up of the ice. The *Ferry scow Union* parted her cable on Sunday night, and was laid up in consequence for several days, causing any quantity of those curses "not load but deep" from the lips of the grum ferryman, as he tugged away at the oars of the small tender. The cable has been supplied, we believe, and the scow will henceforth make regular trips.

THEATRE.—We are informed that Mr. DONKIN intends securing a good company from Detroit and other cities, and playing a spring Theatre engagement

BOOKS.—McMAHAN of the Gift Book Store, is kicking up considerable excitement in town, and seems intent upon not only making this a literary city, but on rendering the inhabitants thereof gorgeously attractive in rich and glittering bracelets, rings, pins, "precious gems" and "such like" to an unlimited extent. His assortment of books is extensive, and he is adding thereto every day, the prices therefore the same as at other establishments, and the prospect for a small fortune with each dollar invested has so great an influence with people generally that they cannot resist the temptation to "chance it" when such flattering indications of a unimpaired return for the venture present themselves.

A HOG, following the example of the adventurous school-boy, ventured on the dangerous ice of the bayon, on Monday evening. As he was pursuing his travels, the ice parted and the adventurer was left at the mercy of the wind and tide. Perilous as was his position, the brave animal scorned the surrounding danger and remained over night. On one side the dark flood flowed on, offering no assistance, while on the other a pile of lumber presented its rugged front so threateningly, that Mr. Hog dared not climb. The grunts of the poor creature were piteous and heart rending, but his perilous position forbade the hope of rescue, and many a Pharisee passed over on the other side. At length, however, a courageous youth, at the imminent peril of damped feet, laid a plank so that it connected the ice and the main land, and the animal walked ashore, where he was swifly welcomed, and with "the other pigs" went on his way rejoicing. The newly elected city fathers should take measures to be taken to prevent a like occurrence in future.

COLD BATH.—While the steamer *Star* was crossing the river this morning from the opposite side, having on board several horses, one of them became frightened when the boat was about midway between the shores, leaped overboard into the river and swam for the other side, where he was rescued with some difficulty by a number of men employed on Messrs. WHITMORE & BLANCHARD's vessel. The animal was so severely injured during the "dragging out" process, as to be quite lame from the effects.

SALT.—Most of the salt wells in the Valley are progressing rapidly. The East Saginaw Company are boiling from both of their wells, while most of the other companies are preparing for the summer business. The well at Saginaw City has reached the depth of over seven hundred feet, and Mr. SPANGLER is still boring. Strong brine has been reached.

LUCKY.—Our young friend, J. HALLER, of the Boot & Shoe Store, had the good fortune to draw a very handsome silver watch last evening, with a dollar book, purchased at the Gift Book Store of J. H. McMAHAN, located with Toms & Tucker, in this city. His good luck induced many others to invest immediately, and the profusion of rich and costly jewelry disseminated in consequence was truly marvelous.

CITY OFFICERS.—The following are the officers elected of the city of East Saginaw, for the year ensuing: Mayor—Charles B. Mott, Recorder—John J. Wheeler, Treasurer—Solomon B. Bliss, Comptroller—Emil Moore, Justice of the Peace—Patrick Glynn, Aldermen—1st Ward—B. Eggleston, M. Jeffers; 2d Ward, W. H. Warner, W. F. Glasby; 3d Ward, W. H. Southwick, L. H. Eastman.

BUFFALO HARBOR. we understand, is now open, as are most of the harbors on the lake.

"NOBODY IS SUFFERING."—Mr. Lincoln's Columbus speech is thus practically answered in the Philadelphia *Inquirer*: "In this city full thirty per cent. of the working population are idle. To realize the truth of this, let every note of his own peculiar trade or business; let him call to mind the large number of his friends, neighbors, and fellow-traders who walk the streets day after day with nothing to do. His experience in this respect will be the type of all. Let him go into the large manufacturing establishments, which at this time should be filled with busy hands, and observe the thinned ranks of the workmen and workwomen. From this cause Chestnut street wearies every day the appearance of a holiday, so many idle people are on that thoroughfare. Our hotels and mercantile warehouses, which by this time should be vocal with the hum and activity of the spring trade, are dull and almost lifeless. The building permits, which in February a year ago numbered hundreds, now scarcely reach a dozen. It is stagnation everywhere. The man who does not see it is blind, and the public man who ignores it, in the Legislature or in Congress commits a crime."

ILLINOIS BANKS.—Some of the owners of Illinois banks want to Springfield to make good their want of stocks on the call for the 20th ult., but learned that it was not required, as the law recently passed permits a suspension of redemption for the ensuing six months, and the banks failing to meet that call cannot be put in liquidation, consequently, until some time next next October.

will take risks on as favorable terms as other
reliable companies can afford to.

At the Banking Office of W. L. P. Little & Co.
East Saginaw, Nov. 1, 1860.

WEBSTER HOUSE.
THIS popular and favorite Hotel has recently
been fitted up in good style, and in every way
calculated for the comfort and convenience of the
travelling public, and the rest of mankind, and the
proprietor having had some experience in catering
for the public, flatters himself that he cannot be
outdone by any first class Hotel in Northern Michi-
gan. The rooms are large, airy and convenient,
and second to none in the State, which makes it a
very desirable house for gentlemen on business or
pleasure.
The table will at all times be furnished with the
luxuries of the season, as well as the substantial,
for the inner man; in fact, the proprietor means that
the Webster House shall be the *deus ex machina* of the
Saginaw Valley. In connection with the house
a little something is kept for the "domestic" sake
and those often informed. Also, good meat and
stabling, well supplied with hay and grain.
Saginaw City, July 26, 1860. LESTER CROSS.

PRINCE OF WALES!!
THE PRINCE OF WALES, HAVING AT
last, left our shores of his native hills, and the
execution of his civil having in a measure subsided,
I am now prepared to execute upon a more liberal
and extended scale than ever, Ambrotypes, Ferro-
types, Photographs, and in short every style of pic-
ture in vogue, in the most and most approved
styles.
In connection with the above, I have established a
Gift Enterprise, in which those sitting for pictures
will be induced to arise, where the price of pictures
amount to one dollar or upwards. I guarantee per-
fect satisfaction or no sale. H. N. EASTMAN.
P. S.—Mothers are requested to bring in their
children in the fore part of the day, to avoid the
crowd of the afternoon. H. N. E.
East Saginaw, October 23, 1860.

splendid assortment of Boots and Shoes of our own
and Eastern manufacture.
NIEDERSTADT & SON.
East Saginaw, May 28, 1860. n41-

Scrofula, or King's Evil.
Is a constitutional disease, a corruption of the
blood, by which this fluid becomes vitiated,
weak, and poor. Being in the circulation it
pervades the whole body, and may burst out
in disease on any part of it. No organ is free
from its attacks, nor is there one which it may
not destroy. The scrofulous taint is variously
caused by mercurial disease, low living, dis-
ordered or unhealthy food, impure air, filth
and filthy habits, the depressing vices, and,
above all, by the venereal infection. What-
ever be its origin, it is hereditary in the con-
stitution, descending from parents to children
unto the third and fourth generation; "indeed,
it seems to be the doom of him who says, "I
will visit the iniquities of the fathers upon
their children."

Its effects commence by depuration from the
blood of corrupt or vitiated matter, which, in
the lungs, liver, and internal organs, is termed
tubercles; in the glands, swellings; and on
the surface, eruptions or sores. This foul cor-
ruption, which grows in the blood, depraves
the energies of life, so that scrofulous constitu-
tions not only suffer from scrofulous com-
plaints, but they have far less power to with-
stand the attacks of other diseases, conse-
quently, and numbers perish by disorders
which, although not scrofulous in their nature,
are still rendered fatal by this taint in the
system. Most of the consumption which de-
cimates the human family has its origin directly
in this scrofulous contamination; and many
destructive diseases of the liver, kidneys, brain,
and, indeed, of all the organs, arise from or
are aggravated by the same cause.
One quarter of all our people are scrofulous;
their persons are invaded by this lurking in-
fection, and their health is undermined by it.
To cleanse it from the system we must remove
the blood by an alterative medicine, and in-
vigorize it by healthy food and exercise.
Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,
the most effectual remedy which the medical
skill of our times can devise for this every-
where prevailing and fatal malady. It is com-
monly known as the "Blood Purifier," and has
been discovered for the expurgation of this foul
disorder from the blood, and the rescue of the
system from its destructive consequences.
It is shown by analysis to be free from every
not only Scrofula, but also those other affec-
tions which arise from it, such as Eruptions
and SKIN DISEASES, ST. ANTHONY'S FIRE,
ROSE, OR ERYTHELMA, PUPPLES, PUSTULES,
BLOTCHES, BLAINES AND BOILS, TUBERCLES,
SALT RHEUM, and all the various eruptions,
RHEUMATISM, SPITTLING AND MERCURIAL
DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and,
indeed, ALL COMPLAINTS ARISING FROM VITIA-
TION OF THE BLOOD. The popular belief
in "purity of the blood" is a fact, and, indeed,
for scrofula is a degeneration of the blood. The
particular purpose and virtue of this Sarsapa-
rilla is to purify and regenerate this vital fluid,
without which sound health is impossible in
contaminated constitutions.

AYER'S
Ague Cure,
FOR THE SPEEDY CURE OF
Intermittent Fever, or Fever and Ague,
Remittent Fever, Chill Fever, Dumb
Ague, Periodical Headache, or Bilious
Headache, and all the various ailments
for the whole class of diseases origi-
nating in bilious derangement, caused
by the Malaria of Miasmatic Coun-
tries.

We are enabled here to offer the community a remedy
which, while it cures the above complaints with cer-
ainty, will still perfectly harmonize in any quantity. Such
a remedy is invaluable in districts where these afflicting
disorders prevail. This "Ague" expels the malarious
poison of Fever and Ague from the system, and pre-
vents the development of the disease. If taken on the
first approach of its premonitory symptoms, it is not
only the best remedy ever yet discovered for this class
of complaints, but also the cheapest. The large quantity
we supply for a dollar brings it within the reach of every
body; and in bilious districts, where Fever and Ague
prevails, every body should have it and use it freely both
for cure and protection. It is hoped this will place it
within the reach of all—the poor as well as the rich.
A great superiority of this remedy over any other ever
discovered for the speedy and certain cure of Intermit-
tent is, that it contains no Quinine or mineral, conse-
quently it produces no unpleasant or violent effects, and
whatever upon the constitution. Those cured by it are
left as healthy as if they had never had the disease.
Fever and Ague is not alone the consequence of the
malarious poison. A great variety of diseases arise from
its irritation, among which are Nephritis, Rheumatism,
Gout, Headache, Hives, Toothache, Paralysis, Catarrh,
Asthma, Pileitis, Gonorrhea, and all the various ailments
of the human body, all of
